PREFACE

IN presenting the Sixty-Sixth Annual Edition of the City of Hamilton Directory, we thank the business men and patrons in general for the liberal and enthusiastic support they have given us.

The number of names in the Alphabetical Section is 79,610. Wives' names approximate 31,750 making a grand total of 111,360 names in this section of the Directory.

The Street Directory shows some 42,850 listings including Householders, Firms, Offices, Buildings and Institutions. Our estimate of the population of the City proper is 165,384.

There are a number of persons whose names are in the directory who just live outside the city limits, and others who live in nearby municipalities who are employed in Hamilton, these names approximate 2,750, so the residential and working population of Greater Hamilton is 168,134.

AS SIMPLE AS 1-2-3 . . .

An Idea is Born in one man's mind. Something to make sales, or cut costs or smooth out a business bump. Man dictates idea, or scribbles it down. Dozens or thousands must have a copy of that idea—fast and economically.

Birth of the "Master"—Girl prepares Mimeograph Stencil Sheet. Puts it in typewriter just as ordinary piece of paper. Types it just as a letter is typed except ribbon is lowered. Takes it out and the Master Copy of one man's idea is ready. The Mimeograph Stencil Sheet can also be written on by hand—and drawn on, too. It is graduated with neat silver lines so you can place your message exactly where you wish.

Idea Multiplies—Operator "buttons" stencil sheet on Mimeograph Machine. He "inks up" without touching the ink. (Some models are self-inking.) You'll admire the smooth-as-silk consistency and the ever-true, ever-black of Mimeograph Inks. Then he spins, or lets electricity spin for him, the machine. And out sail papers vitalized by One Man's Idea at the rate of 60 to 150 per minute!

Idea Goes to Town—The last of four simple steps: getting One Man's Idea out to Many Men's minds via Mimeograph and the Canadian Mail or whatever manner of distribution is usual. If you are not familiar with the simplicity of using the Mimeograph family of products write or 'phone for particulars.

They all changed to . . . "Copyright" Carbon Paper

CURL CONTROLLED Yes! "Copyright" Carbon Paper is actually treated to take care of the great variation in humidity between summer and winter. This has always been a cause for carbon curling. Curl control definitely cures this trouble.

KLEENEDGE Carbon Paper is faster and cleaner to handle. Carbons can be removed from typed matter instantly without handling the inked surface — completely eliminates soiled hands, smudged copies, creased or "treed" carbons.

NON-TACK PENCIL . . . a clean, hard surfaced sheet for pen or pencil work, giving a sharp, bright blue, legible copy. "Non-Tack" will not stick to the copy — a big advantage, especially when used in billing machines.

CLEAN NOISELESS is CLEAN Carbon Paper—clean meaning ABSOLUTELY CLEAN. It is a hard finished sheet specially designed for sharp, clean cut copies. The color will not rub off on your fingers, causing smudgy work.

UTILITY No. 1721 The famous Utility Carbon Paper which can be used for standard or noiseless typewriter, for pencil or pen work, for billing or correspondence—all with excellent results—a popular number.

PERMANENT BLACK Carbon Papers are guaranteed permanent. No chemical solvent has been discovered which will erase the black copies. They will be legible as long as the paper remains intact.

For permanent records use "Copyright" Permanent Black Carbon Papers.

BRILLIANT COLORS . . . to meet all your requirements. Red, Blue, Black, Purple, Brown, Green, Yellow. All are made to give brilliant, clean cut, lasting copies.
